Environmental Law

This journey comprises a number of events that deal directly or indirectly with environmental law - its drafting, implementation and enforcement.

Legal practitioners, academics, policy makers, judges, and civil society organizations and individuals will have an opportunity to discuss and discover how environmental law can be instrumental in the conservation of nature and natural resources.

The journey has been organized by the World Commission on Environmental Law (WCEL), the Environmental Law Centre (ELC), and the IUCN Academy of Environmental Law.

The IUCN Environmental Law Programme looks forward to your active participation and input.
